Problem Solving

Michelle, the art teacher, needed some buttons for an art project. She went to the art store and bought 252 red buttons, 8 blue buttons, and 22 black buttons. How many buttons did Michelle buy in all?

Evan had 92 plastic army men, but he lost 9 of them in the yard. Luckily, he got 21 more at a yard sale. He estimates he has around 120 army men now. Is that a good estimate?
